

Attachment for TCM Forklifts

TCM Forklift Attachments - In the global business of material handling, forklifts play a major role for transporting industrial goods. Originally innovated as industrial vehicles in the 1930s in America, forklifts gained recognition after World War II during the 1940s. Becoming a reliable and efficient means to material handling solutions, the need and practicality of these machines spread internationally.

First started as Toyo Carrier Manufacturing Company Limited, in 1949, the company was later renamed Toyo Umpanki Co. before becoming known as the TCM Corporation. Started by Mr. N. Niwa manufactured Japan's first lift truck. Over the years, TCM lift trucks have become an international leader in forklift manufacturing and have built a solid reputation with the industry. TCM began constructing lift truck manufacturing locations outside of Japan during the 1980s and is currently engaged in forklift manufacturer at three foreign factories in Europe, China and the United States.

With more than 50 years of accumulated expertise and technology, TCM has been proudly manufacturing numerous models of industrial forklifts, making their models known all around the world. With an energetic and strong employees, TCM has been able to continually work towards becoming a future leading material handling company.
