

TCM Forklift Parts

TCM Forklift Parts - In the global trade of material handling, forklifts play a major role for transporting industrial goods. Originally innovated as industrial vehicles in the 1930s in the United States of America, forklifts gained popularity following WWII in the 1940s. Becoming a reliable and efficient means to material handling solutions, the need and practicality of these machines spread internationally.

In nineteen forty nine, established by Mr. N. Niwa, the first Toyo Carrier Manufacturing Company Limited, which was later named Toyo Umpanki Co, was recognized. Presently the business is simply called TCM Corporation. Through the years, TCM forklifts have become a global leader in lift truck manufacturing and have built a solid reputation in the industry. TCM began constructing lift truck manufacturing sites outside of Japan during the 1980s and is presently engaged in forklift manufacturer at three foreign factories in Europe, China and the United States.

With over 50 years of accumulated technology and expertise, TCM has been proudly manufacturing several models of industrial trucks, making their models known all over the globe. With an energetic and strong staff, TCM has been able to continually work towards becoming a future leading material handling business.
