

Forklift Electrical Part

Forklift Electrical Parts - Lift trucks as well as various forklifts could have particular labels utilized in certain hazardous locations. The label indicates that this specific model of forklift meets the minimum standards of ANSI/UL 553 used for electric forklifts or ANSI/UL 558 utilized for internal combustion engine forklifts.

Applications for labeled trucks may be found in National Fire Protection Association NFPA 505 - Powered Industrial forklifts including: Type Designations, Areas of Use, and Maintenance and Operation. Consult your local insurance carrier and Fire Marshall for more information on the permitted uses of industrial powered trucks in your application.

If the particular lift truck meets the outlined criteria, labels can be attached. A labeled forklift will show the type of designation placed on the nameplate and will have a properly corresponding label placed.
