

Clark Forklift Part

Clark Forklift Parts - Performing globally, there are currently 350,000 Clark forklifts and lift vehicles in operation, with in excess of 250,000 of those in commission in North America. Clark has five major lines of forklifts across the globe, making it one of the most expansive corporations in the industry. Heavy duty vehicles ranging from 1,500lb to 18,000lb capacities, dual fuel, petrol, LPG, hand-driven lift trucks, narrow-aisle stackers and electric riders are some of their specialties.

Clark Totalift has 20 exclusive makes of lift trucks, with components covering more than 120,000 specific items for all of its automated equipment. Your regional Clark Dealer is your complete source for availability of all your components needs supplied by Clark Totalift.

Clark features a phenomenal Parts Supply team. The items warehouses are conveniently stationed in Changwon, South Korea and Louisville, Kentucky to make certain exceptional service to both their buyers and their sellers. For over 90 years, Clark has exceeded industry standards, being one of the most actively advancing companies. Motivated to supply the highest level of value and service to our customers, Clark remains on the cutting edge when it comes to improving efficiency and benefiting performance.

Clark Totalift has a very impressive global support network. With over 550 locations globally, seller representation in over 80 countries and 230 locations in North America, their high level of dedication to their customers predominates the material handling market.

Clark proudly remains an progressive leader of the industrial equipment industry, pioneering safety features such as the worker restraint system. This exceptional commitment to safety is at this time a customary feature on every lift truck.

Clark's recurrent goal to boast the No. 1 Quality system in the industry is proudly demonstrated by ISO 9001 - Clark, is the first forklift manufacturer across the world to be certified with the internationally approved quality standard ISO 9001 for all of their production facilities. Also, the ISO 14001 Environmental Stewardship System certificate was awarded to Clark's Korean facility in 2001. This paramount achievement allows Clark to be prepared for any environmental restrictions, thus placing them in a prevailing industry position.

Clark has chosen the structure of "Lean Manufacturing" at all of its assembly facilities for the reason that this technique is particularly economical and allows for minimal use of resources. Established to guarantee maximum efficiency, this system is intended to discover and acknowledge the most efficient methods for manufacturing plant management. Clark has completed this transition of its Korean plant. COPS which is Clark Optimized Production System, similarly focuses on quality of product and services and manufacturing efficiencies.

By working collectively, Clark's product suppliers and engineers communicate towards enhancing product proficiency while minimizing costs. The new value engineering agenda combines progressive product improvement and offers improved client support and service within the industry.
