

Meritor Parts

Meritor Parts - The Meritor Business is a leading international dealer built upon one hundred years of tradition of service and quality. Meritor concentrates on integrated systems along with various modules and parts to the original machinery manufacturers and aftermarket equipment within the industrial and transportation trades.

Meritor values the wishes of their customers to ensure their success while priding itself in the company's unique energy and believes this output of energy to be their competitive advantage in their international operations. Meritor starts with a culture which values diversity of people and their broad thought processes. Operating in 19 countries and hiring over eleven thousand two hundred individuals, Meritor promotes collaboration and innovation amongst a team of experienced professionals.

Meritor strongly believes in just employing future focused staff. These top-caliber people could rapidly adapt to changing environments and freely exhibit the level of performance and commitment necessary to attain results for the competitive market environment. The company empowers their teams to make sound business decisions so as to enhance the overall success of the business. In return, Meritor provides their workers different chances for personal and professional development.

The Advanced Engineering team is on the forefront of components and system engineering. This includes axles, drivelines, suspension and braking systems utilized for medium and heavy duty trucks, off-highway vehicles, buses, military vehicles and trailers. The Meritor Advanced Engineering team is developing. They launched a new technical center in Bangalore, India in September 2009 so as to lead their advanced product development initiatives which represent the whole Asia Pacific region. This team is even responsible for supporting the needs of all their international engineering staff.

Meritor's dynamic and customer focused Quality team is dedicated to ensuring optimum processing at their production plants and aftermarket distribution facilities that are located around the world in 19 nations and in 5 different continents.

They have their supplier network that is particularly located in order to support the growth of the business. Each and every regional team has internationally supported initiatives, quality systems and centralized in Materials Engineering and Six Sigma. Meritor's growing Six Sigma program promotes a fact-based, data-driven method to decision making in every aspect of the company. The DFSS or likewise known as Design for Six Sigma ensures product reliability in every region. The team is also included transactional Green Belts who make use of Six Sigma tools to business techniques and apply lean techniques.
